Section B: 3 Structured Questions (30 marks)

*Instruction: Write your answers in the **Answer Booklet**.*

Question 1

a) Explain the difference between *cyberethics*, *computer ethics* and *Internet ethics*. (3 marks)

b) There are four common discussion stoppers that people tend to bring up in moral discourse. State **TWO** and explain their logical flaws. (4 marks)

c) Consider the following hypothetical scenario:

An IT professional has been assigned to retrieve data from a damaged smart phone. Due to curiosity, he examined the contents of the retrieved data and found that the contents indicate serious criminal activity. Without much deliberation, he decide to bring the data to the authorities and make a formal report against the owner of the smart phone.

Discuss if the actions of the IT professional are ethical based on *professional codes of ethics* and *ethical theories*. (3 marks)

[TOTAL 10 MARKS]

Question 2

a) Briefly describe **FOUR** ways in which cybertechnology raises privacy concerns. (2 marks)

b) Why do cyber-related security concerns typically arise? (2 marks)

c) Describe **FOUR** examples of computer-related crimes that have no direct implications for computer security. (2 marks)

Continued...

d) "Amarjeet, the head of ICT department of Y2K Corp., a small company with 50 PCs was hired to reduce business costs. He decided to authorize the purchase of one copy of each software program. His rationale was, "we bought it, we own it and we can do what we want to do with it." Amarjeet's plan seemed to work until his staff contacted the software publisher for technical support for the pirated software."

Based on the above scenario:

i. Describe the type of computer-related crime. (1 mark)

ii. Describe the consequences that the company must bear from this case. (3 marks)

[TOTAL 10 MARKS]

Question 3

a) Explain **FOUR** intellectual property protection schemes. (4 marks)

b) Slander harms reputation of an individual and lowers the person's self-esteem in eyes of community. Describe **THREE** examples of slander in cyberspace. (3 marks)

c) What is digital divide? Why do people in developing countries who do not have access to cybertechnology are unfairly disadvantaged? (3 marks)

[TOTAL 10 MARKS]
